Want to see if Engineering is right for you?
The Society of Women Engineers at the University of Virginia invites you to apply for our High School Visitation Program happening on March 28, 2020.

About the Program:
The program gives young women a comprehensive look at engineering fields and at UVA’s engineering curriculum through informative speakers, lab tours and hands-on design activities. The program is designed to benefit participants with all levels of engineering experience. We particularly target those students who are not yet familiar with the field but may be interested in applying to engineering schools or pursuing an engineering career.

This spring session particularly targets high school juniors, but seniors and sophomores can also apply.

Program Activities:
The High School Visitation Program teaches young women about the different types of engineering as well as UVA’s engineering curriculum through fun and interactive experiences. Some of the events throughout the day are:

- Design Activity
- Engineering Majors Fair
- Scavenger Hunt around Grounds
- Lab and Dorm Tours
- Professional and Student Panels
- Tour of UVA

How to apply:
The application to apply for Spring High School Visitation can be found at our website: http://www.virginiaswe.org/hsv.

This page will also include:

- Further information about the High School Visitation Program
- Copies of documents found in the application
- Contact information for any questions about the program or application

Sincerely,
Mary DeSimone & Lily Stiles
